Re: McGannon Scholarship – Thank you

Dear Mr. Joe Restoule:

I was ecstatic to find out the great news regarding the McGannon scholarship. I would like to personally thank the McGannon foundation Directors for all of their hard work in making this scholarship possible. As students, many of us struggle to make ends meet while attending university. It is hard to express in words how much this is appreciated. While in school it is easy to get side tracked with work and various extracurricular activities, the support from this scholarship has allowed the focus to be on schoolwork. The support from the risk and insurance community is tremendous. It is something I would have never anticipated before entering this field.

I would also like to extend a thank you to the very generous companies and individuals who have provided the funding necessary for this opportunity to exist. While attending the CRIMS conference in 2010, I was amazed by the generous donations to the foundation. Companies within this industry understand that making an investment in today's youth, is an investment in the future.

I have made it a personal goal of mine to get students involved within the industry at my school. There are tremendous opportunities in the industry and I want to make sure that other students can have these experiences. This opportunity is one that I will be sharing with my fellow students in hope that they will apply for this scholarship in the future. I have been extremely fortunate to receive such great opportunities and be mentored by some extraordinary people. Another goal of mine to mentor fellow students with what I have learned. After receiving tremendous support from the industry, I look forward to being able to donate to the foundation in future.

Thank you again for the tremendous support, it is greatly appreciated. If there is anything I can do to be of assistance to the foundation, please do not hesitate to ask.

Sincerely,

Kyle Johnson
